Independent Auditor's Report

To the Board of Education
Mount Ayr Community School District
Mount Ayr, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Mount Ayr Community School District, Mount Ayr, Iowa, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business type activities, each major fund, and the aggregate remaining fund information of the Mount Ayr Community School District as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 5 through 13 and 41 through 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mount Ayr Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2012, (which are not presented herein) and expressed unqualified opinions on those financial statements. The supplementary information included in Schedules 1 through 10, including the Schedule of Expenditures of Federal Awards required by U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Governmental Auditing Standards*, we have also issued our report dated November 25, 2013, on our consideration of the Mount Ayr Community School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Mount Ayr Community School District's internal control over financial reporting

November 25, 2013

The Mount Ayr Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2013. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2013 FINANCIAL HIGHLIGHTS

General Fund revenues increased from \$7,273,726 in fiscal 2012 to \$7,287,409.30 in fiscal 2013. General Fund expenditures decreased from \$6,994,901 in fiscal 2012 to \$6,887,804 in fiscal 2013. The District's General Fund balance increased from \$1,031,446 in fiscal 2012 to \$1,431,051 in fiscal 2013.

The increase in General Fund revenues is so slight that there is no major reason to attribute it to. The decrease in expenditures was due primarily to staff reduction and fewer purchases.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net position and a Statement of Activities. These provide information about the activities of the Mount Ayr Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Mount Ayr Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Mount Ayr Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year.

Other Supplementary Information provides detailed information about the non-major Special Revenue Funds.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

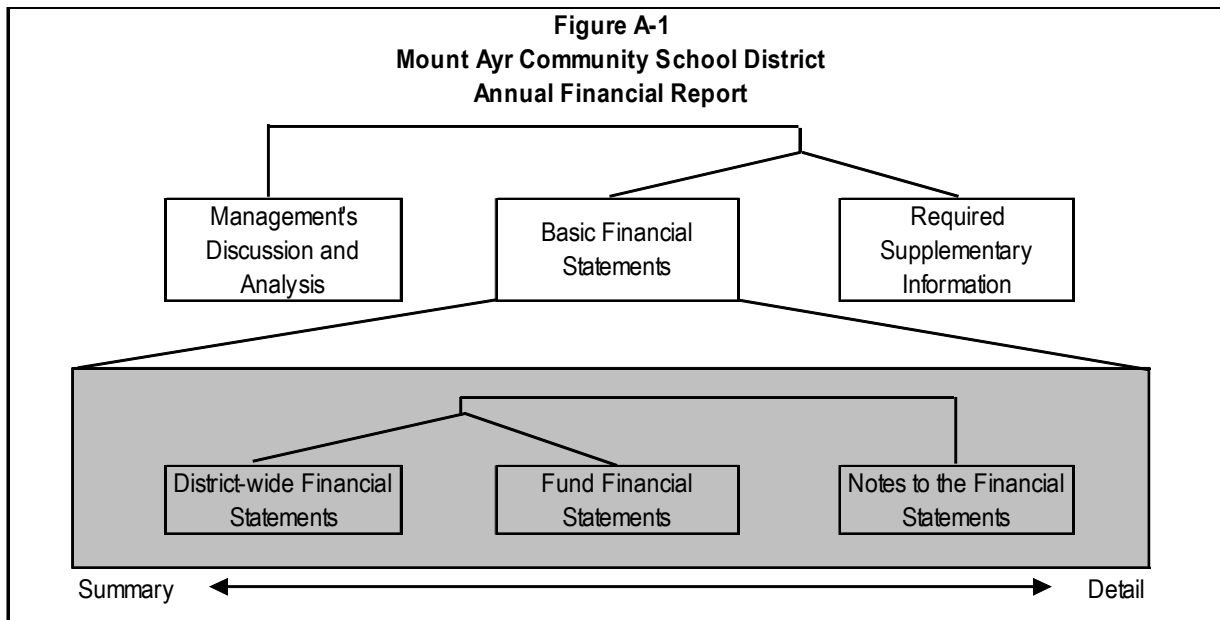

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

REPORTING THE DISTRICT'S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how they have changed. Net position – the difference between the District's assets and liabilities – are one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position are an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.

Business type activities: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds, or to show that it is properly using certain revenues, such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds:* Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for governmental funds include a balance sheet and a statement of revenues, expenditures and changes in fund balances.

- 2) *Proprietary funds:* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's Enterprise Funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has two Enterprise Funds, the School Nutrition Fund and the Student Construction Fund.

The required financial statements for proprietary funds include a statement of revenues, expenses and changes in fund net position and a statement of cash flows.

- 3) *Fiduciary funds:* The District is the trustee, or fiduciary, for assets that belong to others. These funds include Private-Purpose Trust and Agency Funds.

Private-Purpose Trust Fund – The District accounts for outside donations for scholarships for individual students in this fund.

Agency Funds – These are funds through which the District administers and accounts for certain federal and/or state grants on behalf of other Districts and certain revenue collected for District employee purchases of pop and related expenditures.

The District is responsible for ensuring the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's combined net position increased by nearly 6.6%, or approximately \$499,508 over the prior year. The largest portion of the District's net position is invested in capital assets, e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represent resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased approximately \$203,902, or 28.6% over the prior year. The increase was primarily a result of carryover funds in the General Fund for professional development and core curriculum, in the Management Fund for insurance premiums and Capital Projects - Rainy Day Fund – monies used for principal and interest payment on the building project. Unrestricted net position (the part of net position that can be used to finance day-to-day operations without constraints by debt covenants, enabling legislation or other legal requirements) increased approximately \$1,090,013 or 118.4%.

In fiscal year 2013, property tax and unrestricted state grants account for 66.24% of the total revenue. The District's expenses primarily relate to instruction and support services, which account for 85.08% of the total expenses.

Governmental Activities

Revenues for governmental activities were \$9,244,841 and expenses were \$8,721,690.

The cost financed by users of the District's programs was \$925,586.

Federal and state governments subsidized certain programs with grants and contributions totaling \$1,347,270.

The net cost of governmental activities was financed with \$4,057,916 in property and other taxes and \$2,806,625 in unrestricted state grant.

Business Type Activities

Revenues for business type activities were \$409,383 and expenses were \$433,026. The District's business type activities include the School Nutrition Fund and Student Construction Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements and investment income.

**Mount Ayr Community School District
Management's Discussion and Analysis
Year ended June 30, 2013**

The district increased meal prices in 2012-2013. This increase has resulted in increased revenue to the School Nutrition Fund which the District will utilize in the future to offset the rising costs of food and labor.

The following table (Figure A-5) presents the total and net cost of the District's major governmental activities: instruction, support services, non-instructional programs and other expenses for the year ended June 30, 2013 compared to the year ended June 30, 2012.

INDIVIDUAL FUND ANALYSIS

As previously noted, the Mount Ayr Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported a combined fund balance of \$2,233,357, over last year's ending fund balances of \$1,775,638. The primary reason for the increase in combined fund balances in fiscal 2013 is due the decrease in expenditures.

Governmental Fund Highlights

The District's General Fund financial position has strengthened compared to the 2012-2013 school year. The General Fund balance increased from \$1,031,446 in 2011-2012 to \$1,431,051 in 2012-2013. By implementing budget cuts and increasing revenues through property taxes, the district was able to end the 2012-2013 fiscal year with a positive balance.

The Physical Plant and Equipment Levy (PEEL) Fund balance decreased from \$ 22,236 in fiscal 2012 to \$ -3,408 in fiscal 2013. The District levied for the PEEL Fund and used those fund for the purchase of new school busses. The district is building up the balance in the PEEL Fund to help with the purchase of another new school bus. There was a net change in fund balance of - \$25,644.

The Capital Projects Fund balance increased from \$452,998 in 2012 to \$540,557 in 2013.

Proprietary Fund Highlights

Proprietary Fund net position decreased from \$75,629 at June 30, 2012 to \$51,986 at June 30, 2013, representing a decrease of approximately 31.26%. As previously noted, the District increased meal prices in 2012-2013 but with rising costs in food and labor, we are experiencing a decrease in the cash balance.

BUDGETARY HIGHLIGHTS

The District's receipts were \$16,928,476 which was \$7,464,949 more than budgeted receipts. The most significant variance resulted from the revenue through issuance of general obligation funds due to refinancing of general obligation debt.

Total expenditures were \$5,813,355 more than budgeted, due again to the issuance of general obligation funds for the purpose of refinancing the general obligation debt. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Funds. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2013, the District had invested \$13.74 million, net of accumulated depreciation in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This represents a net decrease of 3.3% from last year.

Totals	\$ 8,560,000	8,235,000	3.9%

On October 1, 2001 the District authorized Energy Management Improvement Capital Loan Notes in the amount of \$225,000 bearing interest and maturing each year until December 1, 2012. In March of 2008, the District approved General Obligation School Bonds in the amount of \$6,700,000 and maturing each year until May 1, 2028. In September of 2009, the District passed School Infrastructure Sales, Services, and Use Tax Revenue Bonds in the amount of \$2,885,000. In March of 2013, The District refinanced their General Obligation Bonds in the amount of \$6,615,000 maturing each year until May 1, 2025.

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

Mount Ayr Community School District serves a population of approximately 4,180, mostly in southern Iowa's Ringgold County. District residents are, in general, employed locally and within the area's agricultural sector, but some residents commute to other employment options throughout neighboring counties. Leading local employers include the county hospital, the district, and other healthcare-related employers. Despite the somewhat limited local economy, countywide unemployment has historically been low; unemployment was 3.8% in September 2012, below state and well below national rates.

Enrollment has decreased 62 students, or 9.3%, since the October 2006 count date to reach 608 students in October 2011. The Iowa Department of Education projects enrollment to increase to 634 students, or 4.3%, in the 2016-2017 school year. Management is projecting stable enrollment over the next several years.

The school district refinanced their general obligation bonds during the 2013 school year for interest cost savings and to shorten amortization by three years. Standard & Poor's Ratings Services assigned its 'A' long-term rating to the Mount Ayr Community School District. With this rating is the optimism that the district will continue its plan to increase and maintain reserves at strong levels despite potentially decreased enrollment.

The Board of Directors approved the .34¢ PPEL levy for the 2012-2013 school year but is committed in keeping property taxes as low as possible.

The districts valuations increased from \$220,183,655 in 2011-2012 to \$221,617,239 for the 2012-2013 school year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

Mount Ayr Community School District
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances
Governmental Funds to the Statement of Activities
Year ended June 30, 2013

Net change in fund balances - total governmental funds (Exhibit E)	\$ 457,719
---	-------------------

***Amounts reported for governmental activities in the
Statement of Activities are different because:***

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Net Position and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. The amounts of capital outlays and depreciation expense in the year are as follows:

Capital outlays	\$ 75,727	
Depreciation expense	<u>(496,435)</u>	(420,708)

In the Statement of Activities, the gain on the disposition of capital assets is reported, whereas the governmental funds report the proceeds from the disposition as an increase in financial resources. The gain on disposition of capital assets and the proceeds from disposition are as follows:

Loss on disposition of capital assets	(63,266)	
Proceeds from the disposition	<u>16,650</u>	(46,616)

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of issuance costs and premiums, whereas these amounts are deferred in and amortized in the Statement of Activities. Current year items are as follows:

Repayments of bond and note principal	7,087,165	
Issuance of bond and associated premium and discount	(6,646,629)	
Amortization of premiums and bond issuance costs	<u>(69,600)</u>	370,936

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.

24,178

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Early retirement	<u>135,968</u>	135,968
------------------	----------------	---------

The change in Net Position of the Internal Service Funds represent an undercharge to the governmental funds served and, therefore, increases expenses in the Statement of Activities.

(1) **Summary of Significant Accounting Policies**

The Mount Ayr Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. Additionally, the District either operates or sponsors various adult education programs. These courses include remedial education as well as vocational and recreational courses. The geographic area served includes the City of Mount Ayr, Iowa, and the predominate agricultural territories in Ringgold and Taylor Counties. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Mount Ayr Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the District. Mount Ayr Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Ringgold County Assessor's Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position (previously referred to as net assets) and the Statement of Activities report information on all of the non-fiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's non-fiduciary assets and liabilities, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt attributable to the acquisition, construction, or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other non-major governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

Fund accounting - The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, reserves, fund balance/net position, revenues and expenditures or expenses, as appropriate. The District has the following funds:

Governmental Fund Types: Governmental fund types are those funds through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

General Fund: The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

Debt Service Fund: The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

Capital Projects Fund: The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The other governmental funds of the District are considered non-major and are as follows:

Special Revenue Funds: The Special Revenue Funds account for the revenue sources that are legally restricted to expenditures for specific purposes. These funds consist of the following:

Student Activity Funds: This fund accounts for transactions that occur due to student-related activities from groups and organizations such as athletic and activity events, fundraising and other extra-curricular or co-curricular activities.

Management Fund: This fund is authorized by Iowa Code Section 298.4 and accounts for transactions related to unemployment, early retirement, judgments and settlements and the cost of liability insurance as it relates to property and casualty.

Proprietary Fund Types: Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position and cash flows. The following are the District's proprietary funds:

Enterprise Funds: Enterprise funds are used to account for those operations that are financed and operated in a manner similar to private business or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the District has elected to apply all applicable Financial Accounting Standards Board (FASB) pronouncements, issued on or before November 30, 1989, except for those pronouncements which conflict with or contradict GASB pronouncements.

The following enterprise funds of the District are considered non-major:

School Nutrition Fund: This fund accounts for transactions related to the school lunch, breakfast and summer food programs authorized by Iowa Code 283A.

Student Construction Fund: This fund accounts for transactions related to construction projects performed by students for educational purposes.

Sites for Learning Fund: This fund accounts for transactions related to the before and after school program providing recreational activities for elementary age children.

Internal Service Funds: The internal service funds are used to account for goods or services provided by one department to other departments of the District on a cost reimbursement basis. The District has the following internal service fund:

Flexible Benefits: This fund accounts for transactions for certain benefits available to District employees in which the District is responsible for paying all premiums or costs specified by the employee.

Fiduciary Fund Types: Fiduciary funds account for assets held by the District in a trustee or agency capacity for the benefit of others and cannot be used to support District activities. The District has the following fiduciary fund type:

Expendable Trust Fund: These funds account for assets held by the District for special projects of the District with funds given by individuals, private organizations and other governments.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and early retirement are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted Net Position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications – committed, assigned and then unassigned fund balances.

The proprietary funds of the District apply all applicable GASB pronouncements, as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Liabilities and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents – The cash balances of most District funds are pooled and invested. Investments are stated at fair value.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable – Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2011 assessed property valuations; is for the tax accrual period July 1, 2012 through June 30, 2013 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2012.

Due from Other Governments – Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories – Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Capital Assets – Capital assets, which include property, furniture and equipment, are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

<u>Asset Class</u>	<u>Amount</u>
Land	\$ 2,500
Buildings	2,500
Improvements other than buildings	2,500
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	500

Capital assets are depreciated using the straight line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives (In Years)</u>
Buildings	50 years
Improvements other than buildings	20-50 years
Furniture and equipment	5-15 years

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which are payable in July and August, have been accrued as liabilities.

Deferred and Unearned Revenue - Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred revenue consists of unspent grant proceeds as well as the succeeding year's property tax receivable not collected within sixty days after year end.

Deferred revenue on the Statement of Net Position consists of unspent grant proceeds as well as the succeeding year's property tax receivable that will not be recognized as revenue until the year for which it is levied.

Compensated Absences – District employees accumulate a limited amount of earned but unused vacation for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2013. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term Liabilities – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund Equity – In the governmental fund financial statements, fund balances are classified as follows:

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Unassigned – All amounts not included in other spendable classifications.

Restricted Net Position – In the government-wide Statement of Net Position, Net Position are reported as restricted when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information. During the year ended June 30, 2013, expenditures exceeded the amounts budgeted in the non-instructional programs and other expenditures functional areas.

(2) **Cash and Pooled Investments**

The District's deposits in banks at June 30, 2013 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Interest rate risk: The District's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the District.

(3) **Interfund Transfers**

The detail of interfund transfers for the year ended June 30, 2013 is as follows:

Transfer to	Transfer from	Amount
Capital Projects Fund -	General Fund	
Other Capital Projects		\$ 7,500

The District has pledged future statewide sales, services and use tax revenues to repay the \$2,885,000 of bonds issued in September, 2009. The bonds were issued for the purpose of financing a portion of the costs of a new school. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2029. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 100% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$3,187,587. For the current year, \$165,000 of principal and \$103,993 of interest was paid on the bonds and total statewide sales, services and use tax revenues were \$539,660.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- \$263,731 of the proceeds from the issuance of the revenue bonds shall be deposited to a reserve account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the sinking account. The balance of the proceeds shall be deposited to the project account.
- All proceeds from the statewide sales, services and use tax shall be placed in a revenue account.
- Monies in the revenue account shall be disbursed to make deposits into a sinking account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- Any monies remaining in the revenue account after the required transfer to the sinking account may be transferred to the project account to be used for any lawful purpose.

The District complied with all of the revenue bond provisions during the year ended June 30, 2013.

(6) Pension and Retirement Benefits

The District contributes to the Iowa Public Employees Retirement System (IPERS), which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by state statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary. Contribution requirements are established by state statute. The District's contribution to IPERS for the years ended June 30, 2013, 2012 and 2011 were \$353,482, \$344,708, and \$297,592, respectively, equal to the required contributions for each year.

(7) Other Post-Employment Benefits (OPEB)

Plan Description - The District operates a retiree benefit plan which provides medical and prescription drug benefits for retirees and their spouses. There are 109 active and 16 retired members in the plan. Participants must be age 55 or older at retirement.

The medical/prescription drug coverage is purchased through an outside provider. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2013, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$	28,150
Interest on net OPEB		(1,617)
Adjustments to annual required contribution		3,986
Annual OPEB cost		<u>30,519</u>
Contributions made		37,985
Increase in net OPEB obligation		<u>(7,466)</u>
Net OPEB obligation beginning of year		<u>-</u>
Net OPEB obligation end of year	\$	<u><u>-</u></u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2009. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2013.

For the year ended June 30, 2013, the District contributed \$37,985 to the medical plan. Plan members eligible for benefits contributed \$37,985, or 100% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2013 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2010	\$ 28,500	177.50%	\$ (22,100)
June 30, 2011	25,450	13.16%	-
June 30, 2012	24,687	100.00%	-
June 30, 2013	30,519	100.00%	-

Funded Status and Funding Progress - As of July 1, 2009, the most recent actuarial valuation date for the period July 1, 2011 through June 30, 2013, the actuarial accrued liability was \$310,185, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$310,185. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$4,318,722, and the ratio of the UAAL to covered payroll was 7.2%. As of June 30, 2013, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2008 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumption includes a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 6%. The medical trend rate is reduced 0.5% each year until reaching the 6% ultimate trend rate.

Mortality rates are from the RP2000 Group Annuity Mortality Table, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the retirement probabilities from the IPERS Actuarial Report as of June 30, 2007 and applying the termination factors used in the IPERS Actuarial Report as of June 30, 2008.

Projected claim costs of the medical plan are \$289 per month for retirees less than age 65 and \$300 per month for retirees who have attained age 65. The salary increase rate was assumed to be 3% per year. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(8) Termination Benefits

The District offers a voluntary early retirement plan to its full-time, certified employees. Eligible employees must be at least age fifty-four by September 1, but not more than sixty-two years of age by June 1 preceding the year of retirement and employees must have completed ten years of service to the District. Employees must complete an application and an attached letter of resignation which is required to be approved by the Board of Education.

The early retirement incentive for each eligible employee is the difference between the salary schedule base and the employee's placement on the salary schedule using the salary schedule in effect for the last year of employment and subject to a maximum of \$19,475 to \$36,000 per individual depending upon the individual's level of education and service to the District.

Early retirement benefits are paid monthly and cease when the retiree reaches the age of 65.

At June 30, 2013, the District has obligations to 7 participants with a total liability of \$60,515. Actual early retirement expenditures for the year ended June 30, 2013 totaled \$168,982.

(9) Risk Management

The District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$235,770 for the year ended June 30, 2013 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(1) Basis of Presentation

The District operates within the budget requirements for school districts as specified by state law and as prescribed by the Iowa Department of Management. Budgets are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

For the fiscal year beginning July 1, a proposed budget is adopted by the Board and filed with the County Auditor no later than April 15. The budget is certified by the County Auditor to the Department of Management.

Once adopted, the budget can be amended by the Board. The amendment must be published and a public hearing conducted prior to the amendment. Any amendments must be certified to the County Auditor no later than May 31. The proposed expenditure budget is advertised in the local newspaper, together with a notice of public hearing.

The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is the functional area for a budgeted governmental, enterprise and private purpose trust funds in total, rather than by individual fund type. Formal and legal budgetary control is based on four major classes of expenditures known as functional areas. These four functional areas are instruction, support services, non-instructional programs and other expenditures. During the year ended June 30, 2013, the District over-expended the non-instructional functional area by \$25,440 and the other expenditures functional area by \$91,092. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. Authorized expenditures cannot exceed the lesser of the certified budget plus any allowable amendments, or the authorized budget, which is the sum of the District's cost for that year plus the actual miscellaneous income received for that year plus the actual unspent balance from the preceding year. Appropriations, as adopted and amended, lapse at the end of the fiscal year.

The District is required by the Code of Iowa to budget for its share of media, education services and special education support provided through the local area education agency. The District's actual amount for this purpose totaled \$235,770 for the year ended June 30, 2013.

Mount Ayr Community School District
Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2013

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards presents the activity of all federal financial assistance programs of the Mount Ayr Community School District for the year ended June 30, 2013. All federal financial assistance received directly from federal agencies as well as federal financial assistance passed through other government agencies is included in the schedule. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of states, Local Governments and Nonprofit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Significant Accounting Policies

For governmental funds, in accordance with the modified accrual basis of accounting, revenue from federal grants is recognized when they become both measureable and available. For proprietary funds, in accordance with the accrued basis of accounting, revenues from federal grants are recognized in the period they are earned. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Noncash Assistance

The schedule includes federal awards in the form of noncash assistance (commodities) received during the year in the amount of \$25,792 related to USDA Commodities grants provided by the U.S. Department of Agriculture passed through the Iowa Department of Education, CFDA No. 10.555.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Board of Education of Mount Ayr Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Mount Ayr Community School District, Mount Ayr, Iowa, as of and for the year ended June 30, 2013, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 25, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Mount Ayr Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mount Ayr Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Mount Ayr Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified a deficiency in internal control we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We consider the deficiency in internal control described in Part II of the accompanying Schedule of Findings and Questioned Costs as item II-A-13 to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mount Ayr Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters which are described in Part IV of the Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2013 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Mount Ayr Community School District's Responses to Findings

Mount Ayr Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Mount Ayr Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of the testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Mount Ayr Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

**Independent Auditor's Report on Compliance for Each Major Federal Program,
on Internal Control over Compliance and on the Schedule of Expenditures
of Federal Awards Required by OMB Circular A-133**

To the Board of Education of Mount Ayr Community School District:

Report on Compliance for Each Major Federal Program

We have audited Mount Ayr Community School District's compliance with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of Mount Ayr Community School District's major federal programs for the year ended June 30, 2013. Mount Ayr Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grant agreements applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Mount Ayr Community School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mount Ayr Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Mount Ayr Community School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Mount Ayr Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

The management of Mount Ayr Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Mount Ayr Community School District's internal control over compliance with type of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over

compliance. Accordingly, we do not express an opinion on the effectiveness of Mount Ayr Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control over compliance we consider to be material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item III-A-13 to be a material weakness.

Mount Ayr Community School District's response to the internal control over compliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. Mount Ayr Community School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Part I: Summary of the Independent Auditor's Results:

- (a) Unmodified opinions were issued on the financial statements.
- (b) A material weakness in internal control over financial reporting was disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) A material weakness in internal control over major programs was disclosed by the audit of the financial statements.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed an audit finding which is required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:
 - Clustered programs:
 - CFDA Number 10.553 - School Breakfast Program
 - CFDA Number 10.555 - National School Lunch Program
 - CFDA Number 84.010 – Title I Grants to Local Educational Agencies
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (I) Mount Ayr Community School District did not qualify as a low-risk auditee.

Part II: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCY:

II-A-13 Segregation of Duties - One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Cash receipts are issued and bank deposits are prepared by the same person. An independent person does not open the mail and prepare an initial listing of the checks received and later compare the listing to the receipts issued. Also, vouchers are processed, expenditures are recorded and checks are prepared by the same person.

Recommendation - We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances

Response - We will continue to review our procedures and implement additional controls where possible.

Conclusion - Response accepted.

Part III: Findings and Questioned Costs for Federal Awards:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCY:

III-A-13 Segregation of Duties - One important aspect of internal control is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. Cash receipts are issued and bank deposits are prepared by the same person. An independent person does not open the mail and prepare an initial listing of the checks received and later compare the listing to the receipts issued. Also, vouchers are processed, expenditures are recorded and checks are prepared by the same person.

Recommendation - We realize segregation of duties is difficult with a limited number of office employees. However, the District should review its procedures to obtain the maximum internal control possible under the circumstances

Response - We will continue to review our procedures and implement additional controls where possible.

Conclusion - Response accepted.

Part IV: Other Findings Related to Required Statutory Reporting:

IV-A-13 Certified Budget - Expenditures for the year ended June 30, 2013, exceeded the certified budget amounts in the non-instructional and other expenditures functional area.

Recommendation – The certified budget should have been amended in accordance with Chapter 24.9 of the Code of Iowa before expenditures were allowed to exceed the budget.

Response – Future budgets will be amended in sufficient amounts to ensure the certified budget is not exceeded.

Conclusion – Response accepted.

IV-B-13 Questionable Expenditures - No expenditures were noted that may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-13 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-13 Business Transactions - No business transactions were noted between the District and District officials or employees.

IV-E-13 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that coverage is adequate for current operations.

Mount Ayr Community School District
Schedule of Findings and Questioned Costs
Year Ended June 30, 2013

- IV-F-13 Board Minutes - No transactions were noted requiring Board approval which had not been approved by the Board.
- IV-G-13 Certified Enrollment - A variance in the basic enrollment data certified to the Department of Education was noted.
- Recommendation – The certified enrollment data should be corrected for students who enter the District.
- Response – We will correct the certified enrollment in the future for students entering the system.
- Conclusion – Response accepted.
- IV-H-13 Supplementary Weighting – No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- IV-I-13 Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapter 12B and 12C of the Code of Iowa and the District's investment policy were noted.
- IV-J-13 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.
- IV-K-13 Sale of Property - During the year ended June 30, 2013, the District made sales of property in accordance with Chapter 297.22 of the Code of Iowa.
- IV-L-13 Categorical Funding – No instances were noted of categorical funding used to supplant rather than supplement other funds.
- IV-M-13 Statewide Sales, Services and Use Tax – No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education.
